New Generation
Composite Extinguisher

A Product of Innovation

British made using state-of-the-art clean manufacturing processes. Our patented extinguishers employ technology pioneered by the motor racing, defence, aircraft and aerospace industries.

Increased Fire Protection

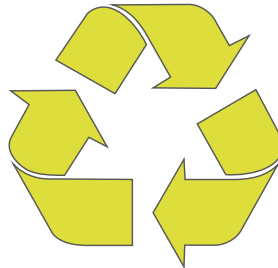

On average our customers benefit from a 47% Cost Saving over a 10 year period

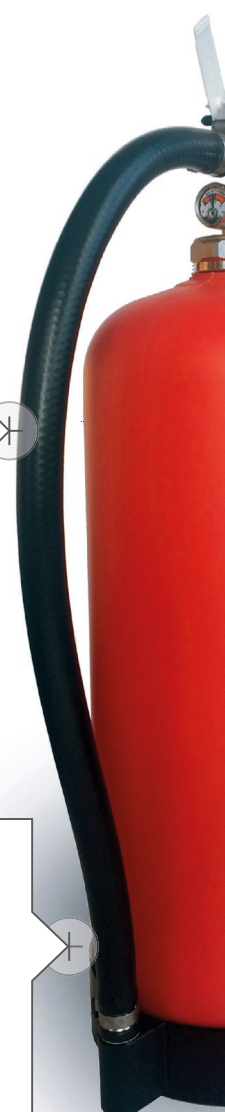

47%

Environmentally Friendly

- 20 Year Life Cycle
- No Service Parts and Fewer Refills
- Watercourse Safe Biodegradable Foam
- Low Energy Manufacturing
- 100% Recyclable Extinguisher

Contact us to see how much you could save

No Annual Maintenance Charges

- Simple visual inspection by a member of your staff offering additional benefits for:

- **Security** Sensitive Sites
- **Offshore & Marine** Industry

- Unique **Online Fire Extinguisher Management System**

Lighter and Safer

- **Less Confusion** as our **Pulse Technology** + **High Performance Foam** can be used on **live electrical** equipment

Increased Safety + **Reduced Costs**

Eastern High Performance Foam Extinguisher

Standard Foam & CO₂ Extinguishers

"We have recently fitted Eastern Extinguisher's new composite foam extinguishers across all our depots. We have been able to significantly reduce the amount of extinguishers needed due to the composite extinguishers' excellent extinguishing range and their capacity to be used on electrical equipment fires. Improving safety whilst reducing costs has been a real no brainer for us! We have also been really pleased with the ongoing customer support provided by Eastern's team."

Martin Smith Health and Safety Manager LC Vehicle Hire

Composite Construction

- Kevlar Aramid type woven core for **Super Strength**
- **UV Protective** Casing
- Marine Grade **Anti-Corrosive** Components
- **10 Year** Guarantee

Business Benefits

Our composite extinguishers are lighter and safer to use, will significantly reduce inventory, are environmentally friendly and offer your business substantial cost savings.
